

Keep high-value tools secure and accessible.

FlipTop™ Mini

The Simplest Way to Keep High-Value Tools Secure and Accessible

Improve the accessibility and security of expensive assets with this high-security storage solution that balances a small footprint with high configurability and capacity.

Features & Benefits

- Small footprint makes it ideal for use in tight workspaces
- Available with up to 384 bins to accommodate hundreds of SKUs
- Highly configurable, with 14 available drawer layouts
- Bins with the same item open at the same time, cutting replenishment time in half
- Secure to the bin level
- Leverages existing CribMaster software platforms to track items
- Up to 3 auxiliary units can connect to the main unit
- AutoLock™ feature automatically re-locks bins when the drawer closes
- Includes UPS (Uninterruptable Power Source) to allow unit to continue operating for a short period of time in the event of a power outage

Software Features

- Restrict item access by user, item, and UDF (user defined fields)
- Manage inventory in real-time with notifications and alerts
- Eliminate unreported stock outs and machine down-time
- Run analysis and reports to optimize suppliers and product mix
- Vend reworked items before new items
- Address Lean & Six Sigma requirement

Accessories

- Optional trolley with wheels to easily transport unit around site

Suggested Inventory Items

Small, expensive items such as:

- Carbide cutting tools
- Diamond drill bits
- Small unpowered electronics
- Thumbdrives
- Batteries
- Welding supplies

*Recommended weight capacity per drawer is 44 lbs (20 kg)

**See FlipTop Configuration Guide for available configuration options.
