

CRIBMASTER

Keep high-value tools secure and accessible.

FlipTop™ Wall

The Simplest Way to Keep High-Value Tools Secure and Accessible

Secure, track and manage expensive assets with this high-security, highly-customizable solution installed on the wall at point-of-use.

Features & Benefits

- Mounts on the wall in a production cell to be as close as possible to point of use, and avoid taking up floor space in small work areas
- Bins with the same item open at the same time, cutting replenishment time in half
- Available with up to 198 bins to accommodate multiple SKUs
- Leverages existing CribMaster software platforms to track items
- Available in four different bin configurations

Software Features

- Restrict item access by user, item, and UDF (user defined fields)
- Manage inventory in real-time with notifications and alerts
- Eliminate unreported stock outs and machine down-time
- Run analysis and reports to optimize suppliers and product mix
- Vend reworked items before new items
- Address Lean & Six Sigma requirement

Suggested Inventory Items

Small, expensive items such as:

- Carbide cutting tools
- Diamond drill bits
- Small unpowered electronics
- Thumbdrives
- Batteries
- Welding supplies
- PPE items

*Recommended weight capacity per unit is 110 lbs (50 kg)

**See FlipTop Configuration Guide for available configuration options.
